PROFESSIONAL SUMMARY

Computer Science graduate with experience in web development and a strong foundation in programming, analytical problem-solving, and technical troubleshooting. Skilled in evaluating technical information, identifying errors, and communicating solutions clearly. Detail-oriented and adaptable, with experience working in both software development and technically demanding environments. Seeking to contribute programming expertise and analytical reasoning to AI training and software evaluation.

WORK EXPERIENCE

Web Development Intern, **Penske Media Corporation** -
Los Angeles, CA (May 2023 - August 2023)

- Contributed to web development tasks using PHP, JavaScript, and WordPress.
- Used Jira to track development tasks, monitor progress, and coordinate work.
- Supported website functionality and troubleshooting within a professional development environment.
- Collaborated with team members to address technical issues and complete assigned development work.

Intern, **Electric Lady Studios** -

New York, NY (May 2026 - August 2026)

- Assisted engineers with recording sessions for professional artists by preparing studios and equipment before sessions.
- Set up microphones, instruments, headphones, cue systems, and other studio equipment according to session requirements.
- Worked with analog consoles, patchbays, and studio signal flow while troubleshooting technical issues.

Teacher's Assistant, **Northern Arizona University** -
Flagstaff, AZ (September 2022 - May 2023)

- Assisted students with course material and provided guidance during assignments and class activities.
- Communicated technical information clearly and professionally while working with students and instructional staff.

EDUCATION

Northern Arizona University -
Bachelor of Science in Computer Science
Flagstaff, AZ (2021 - 2025)

Conservatory of Recording Arts and Sciences -

Master Recording Program II
Tempe, AZ (2025 - 2026)

TECHNICAL SKILLS

- Programming Languages: Java, Python, C, C++
- Web Development: HTML, CSS, JavaScript, WordPress
- Software Engineering: Debugging, problem-solving, code analysis, technical troubleshooting
- Tools & Technology: Git, Jira

SELECTED PROJECTS & PORTFOLIO

Software Development Portfolio |
angusa1210.github.io

- Developing audio-related software projects and web applications. Portfolio includes project descriptions, technical background, and examples of work.
